Washington Correspondence of the Philadelphia Press The Washington Female Prisoners.

The first person incarcerated at the pris on was Mrs. Rose O. H. Greenhow, as signs herself. She was arrested on the 11th of August of the last year, and has been confined in the prison ever since. Her husband was formerly employed in the state department in this city. She is a woman of letters, and was born in the south, al-MEDICINES

Mrs. Levy was a widow, and her husband, who was formerly in the army, died. Her two daughters are finely educated. These latter were, after being confined six weeks, sent to Fortress Monroe.

Next in turn comes Mrs. Betty A. Hassler, who was born and reared in Washington. She possessed the least education of any woman ever confined in this prison. Her husband is a southern man. She is fascinating in appearance, but has not much decision of character. She was released on parole by order of the secretary of war.

Mrs. Jackson, the mother of the assassin of Ellsworth, has also been confined at this point. She came here with nothing but a STANDARD MACHINES, flannel gown on, and wearing slave shoes. She was incarcerated but two days and nights. She has now gone south, to Richmond, where she has been endeavoring with but little success, to obtain funds for the support of her family. It is rumored that she is not able to collect enough funds

to support her from day to day.

Miss Lilly Mackle, a daughter of Mr.
Mackle, a clerk in one of the departments,
and belonging to one of the most respectable families in Washington, was also confined here for two months.

Mrs. M. A. Onderdonk, who sometimes represents herself to be a widow, and some-times a wife, was arrested in Chicago some months since, and after being confined here six weeks, was released on parole. Forty dollars were given her to pay her expenses back to Chicago, but instead of going there she went to New York. She was last heard of at St. Louis.

An English lady, Mrs. Elena Lowe, who
was arrested at Boston, and whose son was

in the rebel army, has also been confined at this institution. The son was afterwards this institution. The son was afterwards sent to Fort Warren, and she returned to Besides the above, there were some eight or ten persons arrested at Alexandria, and in this city, whose names are not remembered, and who, after being confined in this

prison, were shortly after liberated on taking the oath of allegiance.

Miss Ellie M. Poole, alias Stewart, was arrested and brought to the prison on the lith of August, 1861. She came from Wheeling, where, after having been confined for some time in the prison there, she made her escape by tying the sheets together and letting herself down from the prison windows. She has been in communication with the rebel leaders in Kentucky, advising them to made covers. ing them to made certain changes in their plan of operations. When arrested the second time, within ten miles of the enemy's lines in Kentucky, \$7,500 of unexpended money, furnished by the rebels, was found upon her person. She has been a correspondent of the Richmond Enquirer and Baltimore Exchange. Miss Poole is yet in confinement at yet in confinement at the sixteenth street

Among the number yet confined here is Mrs. Baxley, formerly a resident of Balti-more. She was arrested on the 23d of De-cember. She had just come from Richnond, and had been in conversation with Jeff. Davis, from whom she had obtained a commission in the rebel army for her lover, Dr. Brown. She is, as she represents herself, a very "explosive" woman, and it was from this fact that her arrest took place on board of the boat, while approaching Baltimore from Richmond. This woman has refused to sleep under a blanket marked "U. S." ever since her confinement here.

THE DEFENCES OF NEW ORLEANS, -- A gentleman who is familiar with the situation and defences of New Orleans, (says the Boston Journal,) expresses doubt whether the city can be invaded from the sea so easily as has been supposed. The Missis easily as has been supposed. The Mississippi river is believed to be amply protected by Forts Jackson and Philip. The approaches by the way of Lakes Borgne and Pontchartrain are well guarded. Forts Pike and Wood, which command the two pike and leading from the former into the Pike and Wood, which command the two channels leading from the former into the latter lake, are formidable structures, each mounting fifty heavy guns, with double ditches and bomb proof casemates. Vessels approach Fort Pike through a narrow thereal which is commanded for six miles channel, which is commanded for six miles by the raking fire of the fort. The point where the British landed, which is a bayou leading out of Lake Borgne, is commanded by a strong battery—open, however, at the rear. There is also a strongly fortified tower on the shore of Lake Pontchartrain, commanding the entrance to a creek exending into the main land twenty-seven miles below New Orleans. Our informant thinks that Fort Pike might be silenced by anding a force at the mouth of Pearl riv er, and bombarding it from the opposite

A PRO-SLAVERY SPEECH IN CONGRESS.-Mr. Wadsworth, of Kentucky, delivered a pro-slavery speech in the house by threatening a fresh rebellion in Kentucky, should the government make war upon slavery, or allow the rebellion now existing to be an excuse for overthrowing slavery in the revolted states. By looking at the census map of slavery just issued, it will be seen that the district represented by Mr. Wadsworth in congress is the darkest part of Kentucky-contains a greater percentage of slaves than any other portion of the state. This fact will, perhaps account for the pro-slavery and disunion tone of the speech. Several of the colleagues of Mr. speech. Several of the coneagues of mr. Wadsworth dissent entirely from it. Mr. Mallory took the ground squarely the other day in debate, that if slavery stood in the way of the Union it must unquestionably fall. A majority of the Kentucky members occupy the same ground, and but two or three of the delegation are so attached to slavery that they prefer it to the Union-Wash. Cor. N. Y. Post 16th.

FIFTY. DOLLARS.

The Nos, 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Snee Making, Harness Making, sto., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is sourcely any part of a Trimmers' effecting that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will held six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like then, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the best machine almost useless.

Our customers may rest assured that all our Branch Offices are furnished with the

In case of small purchases, the money may be sent in postage stamps or bank notes.

Set Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

1. M. SINGER & CO.'S GAZETTE, which is a beautifully illustrated Pictorial Paper. in will be sent Gratis

We have made the above Reduction in Prices with the two-fold view of benefitting thepublic and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest plece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great husiness, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always inble to get out of order, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are: extensity of correct action at all rates of speed, simplicity of controlling, great durability and rapidity of operation, with the least tabor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the linest possible working order. Our machines, as made by us, will earn more money with less labor than any others, whether in mintation of ours or not. In fact, they are cheaper than any other machines as a gift.

She is ascinating in appearance, but has not inucli decision of character. She was released on parole by order of the secretary of war. Mrs. Jackson, the mother of the assassin of Ellsworth, has also been confined at this point. She come here with nothing but a flannel gown on, and wearing slave shoes. She was incarcerated but two days and nights. She has now gone south; to Rich! mond, where she has been endeavoring with but little success, to oblain funds for

ined here for two months. Mrs. M. A. Onderdonk, who sometimes epresents berself to be a widow, and some imes a wife, was arrested in Chicago some months since, and after being confined here six weeks, was released on parole. Forty dollars, were given her to pay her expenses nek to Chicago, but instead of going there the went to New York. ,She was last heard

of at St. Louis. An English lady, Mrs. Elena Lowe, who vas arrested at Boston, and whose son was with her, having come with a commission in the rebel army, has also been confined at this institution. The son was afterwards sent to Fort. Warren, and she returned to England

Besides the above, there were some eig or ten persons arrested at Alexandria, and in this city, whose names are not remembered, and who, after being confined in this prison, were shortly after liberated on taking the oath of allegiance.

Miss Ellie M. Poole, alias Stewart, was arrested and brought to the prison on the 11th of August, 1801. She came from Wheeling, where, after having been coulined, for some time in the prison there, she made her escape by tying the sheets together and leiting herself down from the prison windows. She has been in communication with the rebel leaders in Kentucky, advising them to made certain changes in their plan of operations. When arrested the second time, within ten miles of the encmy's lines in Kentucky, \$7,500 of unex-pended money, furnished by the rebels, was found upon her person. She has been a correspondent of the Richmond Enquirer and Baltimore Exchange. Miss Poole is yet in confinement at the sixteenth street

Among the number, yet confined here is Mrs. Baxley, formerly a resident of Baltimore. She was arrested on the 23d of December. She had just come from Rich. mond, and had been in conversation with Jeff. Davis, from whom she had obtained a commission in the robel army for her lover. Dr. Brown. She is, as she represents herself, a very "explosive" woman, and it was from this fact that her arrest took place on board of the boat, while; approaching Baltimore from Richmond. This woman has refused to sleep under a blanket marked "U. S." ever since her confinement here.

THE DEFENCES OF NEW ORLHANS, -A gentleman who is familiar with the situation and defences of New Orleans, (says the Boston Journal,) expresses doubt whether'the city can be invaded from the sea so easily as has been supposed. The Missis sippi river is believed to be amply protected by Forts Jackson and Philip. The approaches by the way of Lakes Borgie and Pontchartrain, are well guarded. Forts Pike and Wood, which command the two channels leading from the former into the latter lake, are formidable structures, each incunting fifty beavy guns, with double ditches and bomb, proof casemates. Vessels approach Fort Pike through a narrow hannel, which is commanded for six miles by the raking fire of the fort. The point where the British landed, which is a bayou leading out of Lake Borgne, is commanded by a strong battery—open, however, at the rear. There is also a strongly fortified ower on the shore of Lake Pontchartrain, commanding the entrance to a creek exending into the main land twenty-seven niles below New Orleans. Our informant thinks that Fort Pike might be allenced by landing a force at the mouth of 'Pearl' river, and bombarding it, from the opposite

"A PRO-SLAVERY SPREOR IN CONGRESS. Mr. Wadsworth, of Kentucky, delivered a pro-slavery speech in the house by threatening a fresh rebellion in Kentucky, should the government make war upon slavery, or allow the rebellion now existing to be an excuse for overthrowing slavery in the revolted states. By, looking, at the census map of slavery, just issued, it will be seen that the district represented by Mr. Wadsworth in congress is the darkest part of Kentucky contains a greater percentage f slaves, than any other portion of the state. This fact will, perhaps account for the pro-slavery and disunion tone of the speech. Several of the colleagues of Mr. Wadsworth dissent ontirely from it. Mr. Mallory took the ground squarely the other day in debate, that if slavery stood in the way of the Union it must unquestionably fall. A majority of the Kentucky members occupy the same ground, and but two or decaded.

There is scarcely any part of a Triminors' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will held six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Yest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. Employees of the Legislature.

From the Journal of the Assembly we learn that the employees of the house, under Dean, chief clerk, and Huntington, sergeant-at-arms, are as follows:

John S. Dean, chief clerk,...... \$5 00 H. A. Lewis, engrossing do ...... H. F. Pelton, transcribing do ...... A. A. Huntington, sergeant-at-arms, Ellis, doorkeeper,...
Hutching, ass't do,...
Carl Smith, ass't do.... Evans, fireman,..... Cavenaugh, do ..... Wilson, do ..... Stewart, care committee rooms,..... Kearney, care speaker and clerk's room, 2 50 Clark, messenger, 1 50

Dean and Huntington both report that the above force is necessary. The opinion of Messrs. Dean and Hunt-

ington to the contrary, people who visit the capito! will believe that too many employees are retained. It will puzzle many to understand how a sergeant at arms and two men, two attendants on committee rooms, and one messenger for the clerk, in all 15 persons, are necessarily employed in taking care of the assembly chamber. From some knowledge of the work to be done, we believe that one-half of these men could be discharged, and the balance left with lighter labor than mechanics perform at \$1,50 a

In addition to this formidable list of supernumeries, there are about a dozen messengers for the house, when less than half that number are really required. The indications for an economical ses-

sion are anything but encouraging. Such a list of useless employees, at high rates; the Saturday adjournments; the strangling of the newspaper reform, by a seemingly concerted arrangement between the two houses; the postage appropriations, and other symptoms, are bad signs, when the taxes of the people for the support of the war must greatly increase the public expenditure. If the members of the legislature wish to secure respect in their professions of economy, or in any attempt at retrenchment on others, they ought to manifest a ball will be a merry one. little disposition to do something among

ARMS FROM GERMANY .- The importation of arms from Germany is on a large scale. The Hammonia brought some 25,000 stand of arms, and a considerable quantity of war stores to New York on her last trip, and the Saxonia, which arrived on Friday, brought two batteries of field artillery, comprising sixteen 12-pounders, and 25,000 stand of arms. Also, saltpetre. Vessels of the Hamburgh line have recently landed large quantities of saltpetre in New York on government account. The Evening Post says:

"To the facilities for the conveyance of war material which have been afforded by the German steamship lines, we are greatly indebted for the rapid and complete equipment of our troops.

GENERAL LANE'S STAFF .- The following is General Lane's full staff. All were appointed on the staff by General McClellan, and detailed to Major General Hunter, to be detailed by him to General Lane-a formality necessary in the case of a Brigadier with a Major General's command:

Colonels-William H. Merritt, of Iowa, who commanded the Iowa First at Springfield: Lieutenant Colonel Judson Kilpatrick, of New York, now of the Harris Cavalry. Majors—John Ritchey, of Kansas; Vevan Antwerp, of Iowa; T. J. Weed and Champion Vanghan, of Kansas. Captains J. R. McClure, of Kansas; William Kyle, of Illinois; William A. Phillips, of Kansas, correspondent of the New York Tribune; A. P. Russell, William O'Donnell, of Kansas. First Lieutenants—James M. Rice, of Illinois; William P. Dole, District of Columbia; James Christian, J. M. Winchell, A. G. Mead, of Kansas; J. B. Carter, of Pennsylvania; A. L. Read, of Kausas. Second Lieutenants-Fred, A. Brown, of New York; Volney Hickok, of Illinois; W. H. Roberts, of Kansas, formerly of Oberlin, Obio.

EDITOR PROBABLY DROWNED .- George P. Buell, editor of the Cincianati Daily Times was probably drowned in the Ohio river early Friday morning. He slept Thursday night on a trading boat at the levee belonging to his brother, and early in the morning was seen to jump into a yawl ly. ing outside the boat, with only his pants, shirt and cap on. Soon after the waves of a passing steamer rocked the yawl violently, and it is supposed Mr. Buell was pitched out. His coat, vest and shoes were left in the cabin of the boat. A reward of \$50 for the recovery of the body has been offered by his brother.

A SECRET REVEALED.

Almost thirty years ago a man about forty-five years of age, and a very beautiful young girl whose years could not have exceeded seventeen, were conversing together befroe a cheerful fire, in a handsomely furnished room in the city of Philadelphia. The girl, from the tenor of the conversa-

"Pshaw!" he exclaimed, "she makes a fool of me. A man of my age! Ridiculous!" and his pen scratched away faster than ever.

Hour after hour passed away. One, two, three o'clock struck, and Mr. Warring was still at work. There was a stir below stairs; then a

sound of bustle and laughing. He heard Alice's voice and her father's, and then another voice that he did not recognize .-They came up stairs-Alice, her father, and a tall, bandsome young man in the United States military uniform.
"Mr. Warring, Captain Hay," said Mr.

Leyman. And then the trio began to talk about the ball, and apparently to forget the writer at the table.

Jonathan Warring's heart grew full of bitterness. Alice once glanced towards him with a pale face and compressed lips. but there was a livid circle round the eyes, But it was but for a moment. Her eyes and her lips were almost colorless. A grew brighter, her laugh more joyous, and strange thought came over him—a thought Captain Hay thought he had never seen that made his pulse beat wildly and his her look so lovely.

He says that it is understood that Gen

that as soon as he is furnished that force,

FREDERICK, Md., Jan. 22. The latest intelligence from western Vir rinia is to the effect that Gen. Jackson is near Romney and partially occupies the town, while Gen. Sander has fallen back a few miles towards Cumberland. There has been no action. Gen. Williams' brigade remains at Hancock. Refugees from Martinsburg bring intelligence that there are but 70 militia in that town under Madenbush, and that these are anxions to throw

duwn their arms and join the union forces This seems to be a general sentiment throughout that region. Gen. Jackson had 17,000 men, and a few men, principally mounted militia were at Duffield station, Bloomers Furnace and Kearnysville cross roads. At Winchester there were about 200 militia.

The Martinsburgh Republican of the 17th inst. appeals to the Governor of Virginia to arm the negroes. It says that at the late battle near Bath the rebel forces were net by 700 negroes on the union side, killed three of the rebel officers and two privates and wounded fifty others belongng to a southern regiment. WASHINGTON, Jan. 22.

The joint committee on the conduct of he war have agreed upon an amendment to the joint rules of the two houses, to the effect that whenever any member rises in his place and states that the executive wishes congress to secretly act on any mat ter connected with the war, it shall be the duty of congress to go into secret session, and deliberate, and come to a conclusion therein before adjournment. The speeches are to be limited to five minutes each, and any member disclosing the proceedings is to be expelled.

Special to Tribune.—Sec. Stanton had

an interview of two hours, in the senate committee rooms, this morning, with the military committees of both houses. All the 16 members were present. The secretary gave his views freely on his plan o conducting the war, and expressed a desire to be at all times informed, for his guidance of matters of public interest coming pefore either committee; adding that the department would always be open to any member of the two committees. He stated that a full and complete list of all the contracts made by or for the war department since the commencement of the war, with the name of every contractor or purchaser, should be made before the 1st of February,

contains the following telegram:
SAVANNAH, Jan. 21. From 40 to 50 vessels are inside Broad ever, 15 miles from Port Royal. None of the southern papers make any ref-

The Norfolk Day Book copies a paragraph from a Petersburg paper, saying that the Pensocola did not escape from the Po-

To this the special correspondent of the American adds: "personal inspection of the Pensacola to-day enables your correspondent to assure this gentleman that the only holes in her bow are those essentially

necessary to the right development of the powers of her forward pivot gun." The Norfolk Day Book publishes a long article recording the adventures, misfor-tunes and maltreatment of Miss Poole, latey released from the prison for females at Washington. The Day Book calls Miss Poole a heroine, and says according to her own story, there was no possible outrage or indignity to which she was not subjected. Cousin Jonathan did not leave for Bos ton that day, but Capt. Hay did leave for the south; and when the winter was gone Mr. Warring returned to his home, but he did not go alone.

Alice went with him and lived a happy woman: for she had ever one with her who could guide her right, and whom she loved with all her soul. But, though Mr. Warring was her husband, she was always fond her, as she stood before him with clasped in her playful moods, as cousin Jonathan

He says that the object of the ultra re publicans, in desiring to supersede McClellau, is to make a political general, feeling assured that the general of this war is to be the next president. McClellan, Sherman, Buell, and Halleck are all democrats, and the moment McClellan is superseded all the rest will resign. them in the field, or to obtain any substantial advantage by water, they have resorted to arson. It is reliably stated in Louisville that the federal government has determined to send beyond their lines and into all the confederate cities and towns, penitentiary convicts and desperadoes, who are to act as spies and burn up our cities, and for all the fires they shall succeed in making they shall be liberally paid.

These incendries have special instructions to burn up all manufactories and workshops, the federals believing that in that way they will not only cripple us, but destroy our manufactories, and thus compel us to rely upon their workshops. This last information is derived from a federal officer in Louisville, who disapproves the policy, and who has not hesitated to speak out in reference to it. THE PRESIDENT AND FREMONT, -A letter

SUPREME COURT.—The case of the estate of Edward Fisher, from the 1st circuit, was argued in the supreme court yesterday.

Somebody has been fooling the editor of the Gazette. "The present editor of the News" was never connected with a New York paper, nor with any paper except the Milwaukee News. The editorial control of the News is precisely where it has been during the whole period of its publication by its present proprietors. We would not permit any one to advocate treasonable, or what amounts to the same thing, abolition sentiments and projects, in its columns .- Mil-

It has been frequently stated that George T. Paul, (who was connected with the New York Daily News when that paper was indicted by a grand jury and excluded from the mails on account of its treasonable avowals.) had an editorial connection with the Milwaukee News. We have repeatedly charged it heretofore, as have other papers in the state, and this is the first denial we have seen. The denial now looks like a quibble-Mr. Paul may have been compelled to leave his situation, and the "present editor" may be free from the charge alleged, and yet the charge stand good when heretofore made. La any event, the News has been conducted politically in just about the style we should suppose Mr. Paul, from his alleged antecedents, would have managed it.

FORTIFICATION BILL.—The fortification bill which passed the house, makes a total appropriation of \$5,969,000 for the years 1862 and 1863. The sums appropriated for lake defences are :--For Fort Montgomery, at the outlet of Lake Champlain. \$150,000; for the fortifications on the northern frontier, including the fortifications at Oswego, Niagara, Buffalo, Detroit and Mackinaw, \$750,000.

## Legislative.

WEDNESDAY, Jan. 22. SENATE. - A large number of bills were introduced into this body to-day-none how ever of a very important character.-The resolutions from the Assubly relative to the reignation of Gen. Sigel, were considered. Sen. Hopkins proposed a substitute, requesting the President to promote this brave officer to be a Major General. The substitute was adopted. Some time was spent on ordering copies of the Governor's message in several languages-the Assembly resolutions on that subject being under consideration. The resolutions were finally adopted as they came from the Assembly except that portion providing for copies in the Welsh language was stricken out, at the request of Sen. Joiner.

ASSEMBLY.—The resolutions of Mr. Pope,

in relation to the doctrine of secession, and repealing the state rights resolutions of 1859, were made the special order for to-morrow at 11 o'clock. A number of bills were introduced, among which were bills by Mr. Bates of Rock, to repeal all laws exempting railroad property from taxation, and to repeal the act authorizing the geological survey. A communication was relogical survey. A communication was re-ceived from Judge Gale announcing that be had returned the stationery drawn by him in the capacity of a reporter. Mr. Bates presented a memorial from Barstow's cavalry regiment.

Gen. Felix K. Zollicoffer.

The rebel commander in Eastern Kentucky, killed at the battle of Somerset on the 10th inst-Felix K. Zollicoffer-is more honorably though perhaps less widely known as the whig and American member of congress from the Nashville (Tenn.) district, in the years from 1853 to 1859 inclusive.-In all the exciting contests of that eventful period he was esteemed a conservative national man: and his record is, for the rep resentative of a southern constituency, quite unimpeachable. We do not recall part he took in the earlier secession move ment, but he was among the first to take a military rank in the confederacy, and since that date his name has been familiar as household words. Briefly, his military career has been to "subjugate and reconcile" the Union men of East Tennessee. One of his first acts was to suppress Parson Brown-low's paper. He early established himself at Cumberland Gap, and from thence he invaded Kentucky simultaneously with the movement upon Columbus and Bowling Green. He was the right flank of the rebe line of occupation. It is still fresh in the minds of the people how terribly he was beaten at Crab Orchard, two months since, and what horrors attended the retreat of take effect at the commencement of the next | bis shattered army. Recovering, he advanced anew into the state, by a better route, and has occupied a strong position on the north bank of the Cumberland river, navigable thence to Nashville, and running some important salt mills for the confeder-We shall soon have full details how his position was made untenable, and how the battle was fought that ended in disaster. to his army and death to himself .- Chica-

ARRIVAL OF THE WISCONSIN FIRST AR-TILLERY.—The second and fourth batteries of the 1st Wisconsin Artillery arrived last evening from Racine by the Chicago and Milwaukee railroad, en route for Baltimore and the Potomac. They left Camp Utley, where they have been encamped since September 1st, yesterday afternoon at 1 o'clock, and reached this city at 5 o'clock. They immediately took up their line of march for the depot of the Michigan Southern and Northern Indian solution. Northern Indiana railroad, and after a hasty embarkation left for Toledo and the East at 7 o'clock. Owing to the lateness of the meals furnished jurors in the trial of civil hour, and the necessity of dispatch, there were no demonstrations along the line of march between the two depots. The men were well uniformed and accoutered, but were without their batteries. They will ar rive to-day with those of the 1st and 3d batteries who are expected to pass through this city this evening en route for Louis

The 2d battery is composed entirely of Germans, under Capt. Herzberg; the 4th, of Americans, under Capt. John F. Vallee. The latter was the officer in commandhaving been placed in that position by the United States mustering officer, in place of Capt. Herzberg, who was entitled to the command by seniority of commission. The reason for this change of command was the fact that at the time of departure, Captain Herzberg was too deeply intoxicated to be competent for the post. Our authority for this is the statement of the officers themselves. It is to the credit of the Wisconsin volunteers themselves that we do not re member a parallel instance, and we trust for the future welfare of the 2d battery that no such disgraceful displays upon the part of superior officers will be hereafter exhib-The men were fully up to the Wisconsin

standard in physique, discipline and inteligence, and this we consider no mean praise The 4th battery was organized on the 1st of September, and the ranks entirely filled on the 20th. It numbers 162 men. The 2d was organized the latter part of August, and completed on the 15th of September, and numbers 152 men. Through the thoughtfulness of Capt. Geo. M. Gray, cof fee and refreshments were provided for both officers and men before leaving, and will be furnished until their arrival at Baltimore. The following is the roster of the batter

SUPREME COURT.—The case of the estate of Edward Fisher, from the 1st circuit, was argued in the supreme court yesterday.

News" was never connected with a New York paper, nor with any paper except the Milwaukee News. The editorial control of the News is precisely where it has been during the whole period of its publication by its present proprietors. We would not permit any one to advocate treasonable, or what amounts to the same thing, abolition sentiments and projects, in its columns.—Milwaukee News.

It has been frequently stated that George T. Paul, (who was connected with the New York Daily News when that paper was indicted by a grand jury and, excluded from the mails on account of its treasonable avowals,) had an editorial connection with the Milwankee News. We have repeatedly charged it heretofore, as have other papers in the state, and this is the first denial we have seeu. The denial now looks like a quibble-Mr. Paul may have been compelled to leave his situation, and the "present editor" may be free from the charge alleged, and yet the charge stand good when heretofore made. In any event, the News has been conducted politically in just about the style we should suppose Mr. Paul, from his alleged antecedente, would have managed it.

FORTIFICATION BILL.—The fortification bill which passed the house, makes a total appropriation of \$5,960,000 for the years 1862 and 1863. The sums appropriated for lake defences are :--- For Fort Montgomery, at the outlet of Lake Champlain, \$150,000; for the fortifications on the northern frontier, including the fortifications at Oswego, Niagara, Buffalo, Detroit and Mackinaw, \$750,000.

Zollicoffer-is more honorably though perhaps less widely known as the whig and American member of congress from the Nashville (Tenn.) district, in the years from 1853 to 1859 inclusive. In all the exciting contests of that eventful period he was esteemed a conservative national man; and his record is, for the representative of a southern constituency, quite unimpeachable. 'We do not recall what part he took in the earlier secession, moyement, but he was among the first to take a military rank in the confederacy, and since that date his name has been familiar as

household words. Briefly, his military career has been to "subjugate and reconcile" the Union men of East Tennessee. One of his first acts was to suppress Parson Brownlow's paper. He early established himself at Cumberland Gap, and from thence he invaded Kentucky simultaneously with the movement upon Columbus and Bowling Green. He was the right flank of the rebel line of occupation. It is still fresh in the minds of the people how terribly he was beaten at Crab Orchard, two months since, and what horrors attended the retreat of take effect at the commencement of the next his shattered army. Recovering, he advanced anew into the state, by a better route, and has occupied a strong 'position on the north bank of the Cumberland river, navigable thence to Nashville, and running some important salt mills for the confederacy. We shall soon have full details how his position was made untenable, and how

the battle was fought that ended in disaster

The latter was the officer in commandhaving been placed in that position by the United States mustering officer, in place of Capt. The reason for this change of command was the fact that at the time of departure, Captain Herzberg was too deeply intoxicated to be competent for the post. Our authority for this is the statement of the officers themselves.
